

MAIMUNAH TABASSUM

MERN STACK DEVELOPER

Sylhet, Bangladesh • +8801736788394 • maimuna.tabr@gmail.com • [LinkedIn](#) • [Github](#) • [Portfolio](#)

Career Objective:

I'm a passionate MERN Stack Developer who enjoys turning ideas into interactive, user-friendly web applications. While I specialize in modern frontend development, I'm continuously sharpening my backend skills with Node.js and MongoDB. I love collaborating with creative teams, learning new technologies, and building scalable solutions that make a real impact.

Skills:

Frontend Skills: •Next.js •React •React Router •Axios •Tailwind CSS •Vite •TanStack Query •HTML •CSS •JavaScript **Backend Skills:** •Node.js •Express.js **Database:** •MongoDB **Tools:** •Figma •Firebase •Netlify •Vercel

Projects:

SmartShop – E-Commerce Website (Team Project)

• [Live Link](#) • [Client Repo](#) • [Server Repo](#) **Skills:** Next.js, Next.auth, React, React, React Hooks, MongoDB, Node.js, Express, Axios

SmartShop is a full-stack AI-powered e-commerce platform designed to make online shopping simple, secure, and rewarding for users, sellers, and admins. It offers a modern interface, real-time order tracking, and a built-in reward system that enhances user engagement and loyalty.

Features:

- AI Chatbot and voice recognition for instant customer seller interaction
- Secure product browsing, cart, and checkout system
- Dynamic dashboards for Users, Sellers, Admins, and Deliverymen
- Order tracking and real time delivery status updates

Blockwise – Apartment Rental & Management Platform

• [Live Link](#) • [Client Repo](#) • [Server Repo](#) **Skills:** Firebase, React, Vite, MongoDB, Node.js, Express, Axios, Stripe

Blockwise is a full-stack web application that streamlines apartment rentals and management by connecting users, members, and admins in a secure and user-friendly platform.

Features:

- Secure user authentication
- Integrated Stripe payment gateway for rent & membership payments
- Admin dashboard for managing users, apartments, and agreements

Share A Bite – Food Sharing Platform

• [Live Link](#) • [Client Repo](#) • [Server Repo](#) **Skills:** Firebase, React, Vite, MongoDB, Node.js, Axios

Share A Bite is a full-stack web application that reduces food waste by enabling users to securely post, browse, and claim surplus food within their communities.

Features:

- Post and Manage food
- Browse and filter food items
- Secure user authentication
